

It's comforting to realize that in a world of uncertainty there are constants we can count on: each dawn ushers in a new day. Days become weeks and weeks months; months seasons, and seasons years.

As members of Connecticut's "green"-er industries, we are more aware of the spirit of renewal that accompanies each Spring. It is our opportunity to once again start working from the ground up, to grow plants, relationships, and our businesses.

The "ground up" or "bottom up" mentality is something we hear more about every day. The terms are typically used in reference to politics, but we, Twin Oaks, see an opportunity to apply them to our relationships with our customers.

We recognize the pressure everyone is under to contain costs or reduce costs. In an effort to relieve some of that pressure, we are not increasing our prices for the 2009 season.

We know that by holding the line on prices we make your job less stressful. The more we do to help you capture jobs and satisfy your customers, the more likely you are to sell your customers on another job or an expansion of an existing project. Working together to capture more jobs, enhance relationships, and build our businesses, from the ground up.

Someone once said that adversity is just an opportunity in disguise.

We believe that to be true.

Call us to discuss what we might do together to ensure that we exceed our customer's needs.

Directions to Twin Oaks

Twin Oaks address is 1253 Main Street North (Route 6), approximately 2.5 miles northeast of Woodbury.

Woodbury is 8 miles due West of Waterbury.

From the West:

Take Interstate I-84 to Exit 15 in Connecticut, Southbury.

Turn LEFT at the end of the ramp, entering Route 6.

Travel approximately 8.5 miles from the traffic light just after the I-84 overpass.

(At approximately 7.5 miles you will pass the "Charcoal Chef" restaurant on the right.)

The entrance to the Nursery is on the LEFT just before the bridge on Route 6. *

If you get to the Intersection of Routes 6 and 61 you've gone 0.75 miles too far.

From the East:

Take Interstate I-84 to Exit 15, Southbury.

Turn RIGHT at the traffic light at the end of the ramp, entering Route 6. From this light, travel approximately 8.5 miles.

(At approximately 7.5 miles you will pass the "Charcoal Chef" restaurant on the right.)

The entrance to the Nursery is on the LEFT just before the bridge on Route 6. *

If you get to the Intersection of Routes 6 and 61 you've gone 0.75 miles too far.

From the North:

Use the most convenient route to intersect with Interstate I-84. Follow the appropriate directions from the West or East listed above. *

From the South:

There are two options: the "inland" route and the "shoreline" route.

In general, unless you are traveling through the Metropolitan New York area, the "inland" route is the easier drive.

Take Interstate I-684 North to Exit 9E, Interstate I-84 East, and follow the directions "From the West" listed above.

If you are traveling through the Metropolitan New York area, the "shoreline" route, Interstate I-95, is easier.

At this time, Route 7, Exit 15 off I-95 North, is undergoing renovation. Travel through this corridor is difficult with many delays.

The preferred route at this time is Route 8, Exit 27A off I-95 North.

Exit Route 8 at Exit 38.

Turn LEFT at the end of the exit.

Traveling under Route 8, turn LEFT on to Route 6 West at the second traffic light, by the Dodge and Mazda dealers, heading toward Watertown.

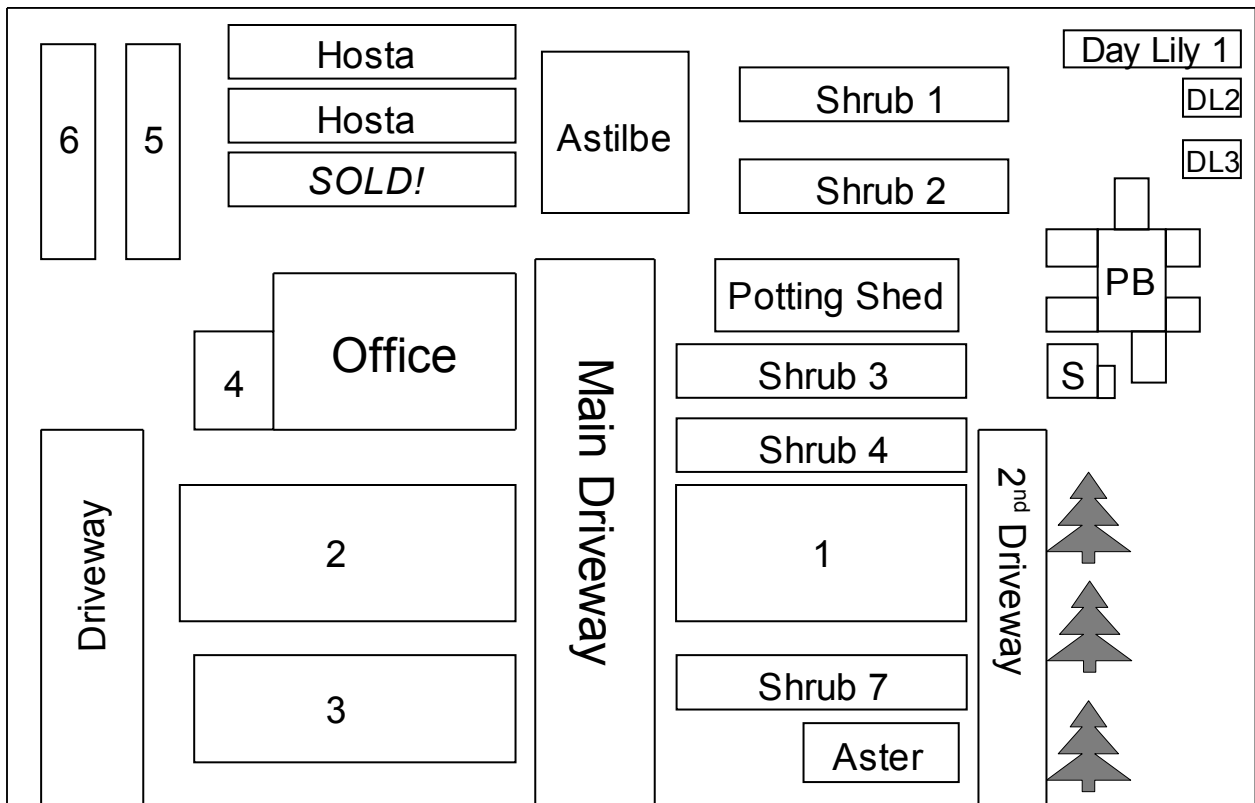

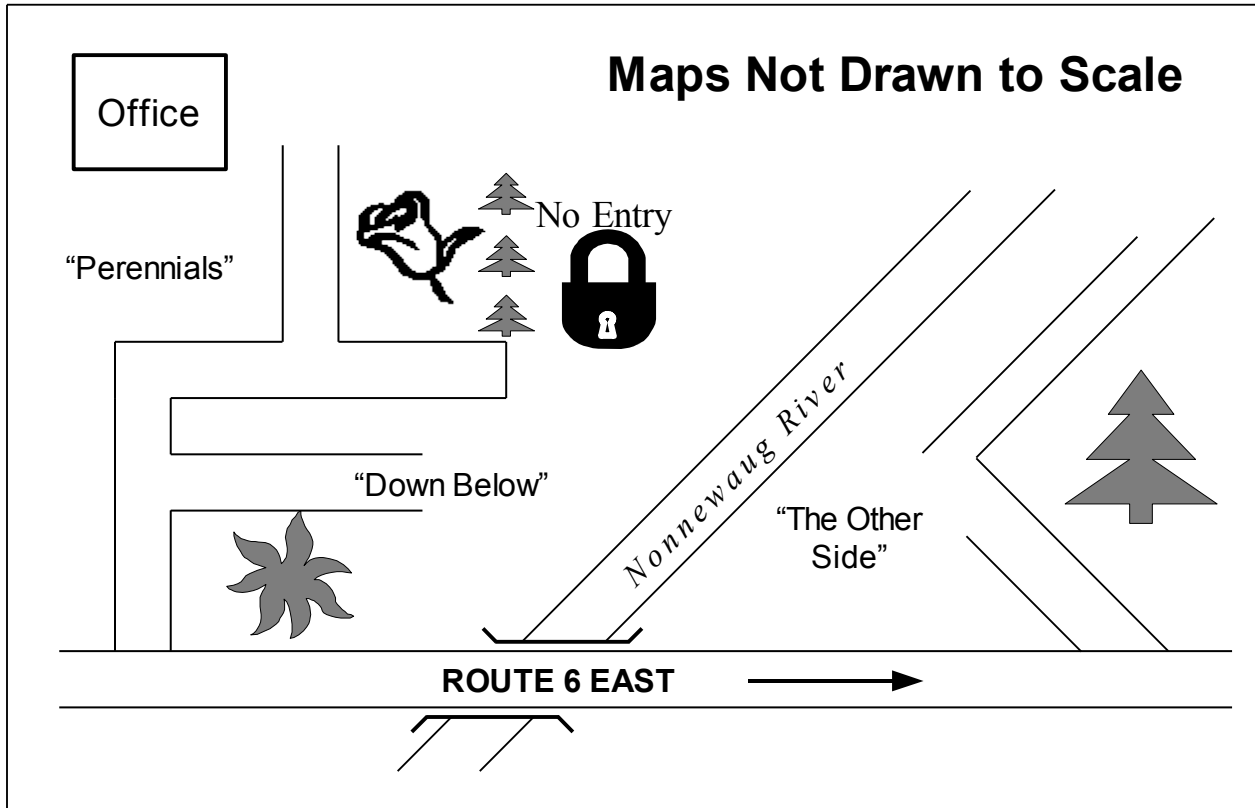

Continue on Route 6 West through Watertown to the intersection of Routes 6 and 61.

Twin Oaks is approximately 0.75 miles PAST the intersection. The entrance is located on the RIGHT just after the bridge on Route 6. *

* Semi-trailer combination vehicles **MUST NOT** attempt to enter the paved driveway.

The break-over is too steep and will damage the landing-gear on the trailer. Contact someone in the Office or telephone (860) 417-9533 for assistance.

Nursery Maps

DO NOT PROCEED PAST 2ND DRIVEWAY!!!

Terms and Conditions

Conditions of Sale

Twin Oaks Horticultural Associates, LLC (Twin Oaks) sells to nurseries and garden centers, landscape contractors, architects or designers, and general contractors. In order to qualify to purchase from Twin Oaks, customers must have a valid Connecticut Sales and Use Tax Exemption Certificate on file with the company. Connecticut customers must also have a copy of their Connecticut Sales and Use Tax Permit, form 603, on file.

Terms of Payment

Payment is due upon receipt of goods or services unless credit has been established. We accept company checks with approval, Visa, MasterCard®, and American Express® credit cards. Payment by credit card is accepted at the time of purchase. There will be a \$45.00 charge, plus bank fees, for all returned checks. Credit applications are available upon request.

Guarantee

All stock will be healthy and true to name. There is no guarantee of growth and Twin Oaks assumes no responsibility for material once it has left the nursery. There is no guarantee of suitability for any particular application. Twin Oaks sells through many hardiness zones with many micro-climates. Several varieties of plants sold may not be cold-hardy in these environments. It is up to the purchaser to determine the suitability of the material purchased for any application. In no event will Twin Oaks be held liable for any sum greater than the original purchase price to anyone other than the original purchaser. All material leaving the nursery in or on an open vehicle must be properly covered. Under no circumstances will claims be considered that are made against material that left our premises without being properly covered.

Tagging

Tagging is allowed in accordance with the following guidelines:

Customers without established credit must pay in full at the time the material is tagged.

For customers who have established credit, a "pending invoice" will be provided either at the time the material is tagged or one will be mailed within 48 hours, whichever is more expedient. Customers will have 2 days after the material is tagged to notify the nursery if the material will not be needed. The third day after the material is tagged the status of the invoice will change to "billed" and the amount charged will become payable according to the terms of your account.

Terms and Conditions *continued*

Example: credit terms net 30 days. Material tagged on the first will be billed on the 4th. The invoice is due on the 30th. Failure to take delivery of and pay for material according to these any applicable credit terms will result in the loss of tagging privileges.

"Pulled" Orders

Upon customer request, given adequate notice, we will "pull" an order for a customer. All pulled orders must be picked-up within 48 hours. Any order that is pulled and not picked-up will be subject to a minimum of a \$100.00 charge.

Transportation

There are three transportation options available to Twin Oaks customers: carriage by nursery-owned and operated trucks, by contract carriers with experience in the industry, or by customer pick-up. Carriage by nursery-owned trucks or by contract carriers will be scheduled on an as-available basis, first come, first served. Charges will be billed at the rate in effect at the time service is scheduled and will be pre-paid. Transportation terms are available upon request.

Returns

No returns are allowed once material has left the nursery unless carriage originated on a nursery-owned vehicle operated by nursery personnel and the return is authorized at the time of delivery. Returned material will be subject to transportation and restocking fees.

Errors and Omissions

Twin Oaks Horticultural Associates, LLC reserves the right to correct any errors in this catalog without prior notice and with no obligation.

Following are some helpful guides. These are meant to be general suggestions and may or may not be suitable for your specific application.

Plants for Wet Areas

Trees:

Acer rubrum
Amelancier
Betula nigra
Liquidamber styraciflua
Nyssa sylvatica
Salix
Quercus palustris
Quercus bicolor
Thuja occidentalis
Tsuga canadensis

Shrubs:

Aronia arbutifolia
Chionanthus virginicus
Clethra alnifolia
Cornus alba siberica
Cornus amomum
Ilex glabra
Itea virginica
Myrica
Pieris
Salix
Vaccinium
Viburnum dentatum
Viburnum trilobum
Viburnum opulus

Plants for Dry Areas

Trees

Acer
Crataegus
Fraxinus
Gleditsia
Pinus strobus

Shrubs:

Arctostaphylos
Berberis
Cotinus
Juniperus
Ligustrum
Lonicera
Myrica
Potentilla
Rosa Rugosa
Yucca

Deer Resistant¹ Plants

Trees:

Abies
Cercis Canadensis
Chionanthus
Crataegus
Picea-not all varieties
Pinus-not all varieties

Shrubs:

Berberis
Buxus
Cotinus
Cotoneaster
Ilex-not all varieties
Juniper
Magnolia
Pieris
Syringa
Vinca minor
Yucca

- 1) Experience has shown that planting mature specimens of trees such as Acer and Quercus, which are not listed, should be considered deer resistant and trees such as Abies, while on the list, are a favorite of deer for removing the felt from their antlers and can be destroyed in such events. **UNDER NO CIRCUMSTANCES SHOULD THE USE OF THE WORD “RESISTANT” BE CONSTRUED TO MEAN “PROOF” OR “REPELLENT”.**

Shade Tolerant Plants

Trees:

Acer palmatum
Amelancier
Cercis Canadensis
Chionanthus
Cornus florida
Oxydendrum
Thuja
Tsuga Canadensis

Ground Cover:

Vinca minor
Pacysandra
Hedera helix

Shrubs:

Aronia arbutifolia
Berberis
Clethra
Cornus
Hammamelis
Hydrangea
Kalmia
Lonicera
Pieris japonica
Pyracantha
Rhododendron
Taxus
Vaccinium
Viburnum-not all varieties

Shore-line Plants

Trees:

Acer platanoides
Amelancier
Crataegus
Picea pungens
Pinus thunbergi
Platanus acerifolia
Tilia cordata

Shrubs:

Arctostaphylos
Aronia abutifolia
Chamaecyparis pisifera
Clethra
Euonymous alatus compacta
Hibiscus syriacus
Hydrangea petiolaris
Ilex glabra
Junperius
Ligustrum
Lonicera
Myrica
Pinus mugo
Potentilla
Prunus cistena
Rosa Rugosa
Spiraea
Syringa
Vaccinium
Wisteria
Yucca
